Design & Style Book

SUNNY SOCKS · the visual system we code to

This is the visual system for the Sunny Socks website. It records our colours, typography, sizing, radii, buttons, forms, cards and layout so everyone codes to the same look and the finished site feels like one brand.

Design direction

Bright, playful and friendly, while still clean and simple to reproduce with plain CSS. The visual language is built around navy, yellow and cream, with small amounts of teal, coral, pink and sunny blue.

01 · FOUNDATION

Colour system

The custom colour tokens defined in the stylesheet. Navy leads, yellow is the main accent, cream is the background, and the rest are playful secondary accents.

Navy #1B2D6B PRIMARY BRAND Text, headings, primary buttons, nav	**Navy Dark** #0F1F56 INTERACTION Hover state for navy buttons
Yellow #FFCC00 MAIN ACCENT Primary CTA, accents, active states	**Yellow Hover** #F0BE00 INTERACTION Hover state for yellow buttons
Teal #00B4C0 SECONDARY Decorative accents, labels	**Pink** #F06292 SECONDARY Decorative, playful elements
Coral #FF7A5C SECONDARY Section accents, labels	**Sunny Blue** #2AAEDB SECONDARY Inquiry accents, focus states
Cream #FFFBEF BASE SURFACE Global page background	**Cream Dark** #F5EFD6 SOFT SURFACE Soft panels, placeholders

Opacity / alpha usage

Pattern	Meaning / example
`white/70`	White at 70% for supporting text on dark backgrounds
`white/60`	Muted white supporting text
`navy/10`	Very subtle navy border
`navy/15`	Light navy border on buttons / inputs
`navy/20`	Stronger input / header border
`yellow/60`	Semi-transparent yellow border on product / confirmation cards
`teal/10 + teal/30`	Soft teal card background + border
`coral/10 + coral/30`	Soft coral card background + border
`yellow/10 + yellow/60`	Soft yellow card background + stronger border

02 · FOUNDATION

Typography

Two Google Fonts with distinct roles: Montserrat for display and interactive text, Inter for body copy.

DISPLAY FONT

Montserrat

Weights: 400–900

Headings, buttons, labels, navigation, product names

BODY FONT

Inter

Weights: 400 · 500 · 600

Paragraphs, form fields, supporting text

Type scale

Size	CSS	Typical usage
`text-xs`	12 px	Labels, tags, compact buttons, helper text
`text-sm`	14 px	Body copy, navigation, form controls
`text-base`	16 px	Product descriptions / standard body
`text-lg`	18 px	Intro / supporting hero copy
`text-xl`	20 px	Card headings / section titles
`text-2xl`	24 px	Large card / stat headings
`text-3xl`	30 px	Page / section headings
`text-4xl`	36 px	Large page headings
`text-5xl`	48 px	Hero headings
`text-6xl`	60 px	Large hero headings
`text-7xl`	72 px	Extra-large hero headings

Weight & casing rules

Element	Rule
Headings	Montserrat 700–900, frequently uppercase
Hero title	Montserrat 900, uppercase, leading-none
Buttons	Montserrat 700
Labels	Montserrat 700, uppercase, letter spacing
Body	Inter 400–600

Element	Rule
Tracking	Labels often tracking-widest / tracking-wider

03 · COMPONENTS

Radius, buttons & controls

Rounded geometry is a core part of the identity. The site mixes 8, 12, 16, 24 px and pill corners.

Token	Radius	Used for
`rounded-lg`	8 px	Primary buttons, header inquiry button, inputs
`rounded-xl`	12 px	Secondary buttons, product action buttons, form fields
`rounded-2xl`	16 px	Images, medium cards, hero / stat blocks
`rounded-3xl`	24 px	Large cards, product cards, inquiry cards, features
`rounded-full`	9999 px	Tags, language switch, badges / pills

Button styles

Primary navy | Primary yellow | Outline

Button	Padding	Radius	Colours
Primary navy	px-6–8 / py-3–3.5	8–12 px	Navy + white; hover Navy Dark
Primary yellow	px-6–7 / py-2.5–3.5	8–12 px	Yellow + navy; hover Yellow Hover
Outline	px-6–8 / py-3–3.5	8–12 px	Transparent + navy border; hover filled navy
Compact action	px-3 / py-2.5	12 px	Yellow or outline, 12 px text
Inquiry header	px-3 / py-2	8 px	Navy + white, 12 px text

Form controls

Control	Current style
Text input	100% width; 2 px navy/20 border; 8 px radius; 16/12 px padding; Inter 14 px
Textarea	100% width; 2 px navy/15 border; 12 px radius; 16/12 px padding; Inter 14 px
Focus	Remove default outline; border changes to Sunny Blue
Checkbox	16 × 16 px; accent colour navy
Error text	Red 500, 12 px, small top margin

04 · COMPONENTS

Cards, components & layout

Collection and inquiry areas use generous rounded containers with clean spacing and subtle borders.

Component	Shape	Border / background	Padding
Product card	24 px	2 px yellow/60 + white	12 px + spacing
Product image	16 px	Cream Dark background	none
Feature card	24 px	1 px navy/10 + white	28 px (p-7)
Inquiry main card	24 px	1 px navy/10 + white	24–32 px
Inquiry selected	16 px	1 px navy/10 + cream/60	16 px

Component	Shape	Border / background	Padding
Payment card	24 px	2 px yellow/60 + yellow/10	24 px
Accent bar	pill	Solid accent colour	48–56 px wide

Product card behaviour

Property	Rule
Card hover	Translate up ~4 px (hover:-translate-y-1) + shadow-lg
Image hover	Scale to 105%
Action layout	Two equal columns with 8 px gap
Tags	12 px semi-bold Montserrat, pill radius, cream background
Product title	Montserrat 700, 18 px
Description	Inter 14 px, relaxed line-height, gray 600
Main CTA	Yellow background, navy text

Container & responsive layout

Rule	Value
Main max width	max-w-7xl = 1280 px
Medium max width	max-w-6xl = 1152 px
Narrow content	max-w-3xl = 768 px
Horizontal padding	16 px mobile → 24 px small → 32 px large
Main grid	1 column default; 2 columns at lg (1024 px+)
Collection grid	1 col mobile → 2 small → 3 large
Inquiry grid	1 col mobile → 2 large; sidebar ≈ 352 px

05 · FOUNDATION

Spacing & sizing

Spacing follows a 4 px base unit (1 unit = 4 px). Use these consistently so rhythm stays even across pages.

Token	Pixels	Common use
`p-1 / gap-1`	4 px	Tiny tag gaps
`p-2 / gap-2`	8 px	Compact control gaps
`p-3`	12 px	Buttons / product card outer padding
`p-4`	16 px	Standard component padding
`p-5`	20 px	Grid gaps / form sections
`p-6`	24 px	Cards / larger controls
`p-7`	28 px	Feature cards
`p-8`	32 px	Large cards / inquiry panels
`gap-10`	40 px	Large section layouts
`gap-12`	48 px	Hero / two-column layouts
`gap-14`	56 px	Large page grids
`py-16`	64 px	Major page sections
`py-20`	80 px	Large hero sections

Common line heights

Pattern	Approx. CSS line-height
`leading-none`	1.0
`leading-relaxed`	1.625
`leading-7`	28 px
`Normal body`	Browser / framework default

06 · MOTION

Animation rules

Keep motion light and purposeful. Decorative movement is subtle and made with simple CSS, and it must respect reduced-motion preferences.

Animation	Timing / easing
sock-float	8 s ease-in-out infinite; small translate + rotation
surprise-flight	8 s cubic-bezier(0.35, 0, 0.65, 1)
sparkle-trail	1.6 s ease-out infinite
Hover transitions	180–450 ms, mostly ease / spring-like cubic-bezier
Reduced motion	prefers-reduced-motion disables decorative animation

Accessibility note

Keep the prefers-reduced-motion rule when rebuilding the site, so decorative movement can be switched off for users who ask for reduced motion.

The short version

Navy leads, yellow is the main call-to-action, cream is the background. Montserrat for display, Inter for body. Rounded corners everywhere, generous spacing on a 4 px rhythm, and subtle playful motion that respects reduced-motion.
